Dear Mr. President:

I want you to know of my objections to your Cabinet Member Mr. Joseph Califano's proposals and assault on the tobacco industry. Your efforts to improve employment and reduce taxes are being undermined. Mr. Califano's actions appear in direct conflict in your reported position that the American people have been adequately "warned" about smoking.

Attached is a copy of my letter to Mr. Califano expressing my views, and replies from Senator James B. Allen and Congressman John H. Buchanan, Jr.

Respectfully,
