Dick - please see if Ken needs anything put together or if this is going to be discussion. Is this just RX or P98 overall? If RX, I guess Ed Gee has some key data.

I agree that subject should be presented at Sr. Team meeting.

Bob, would you schedule ~40-minute timeslot with Wexler.

Ken/jb

Do we have a clear and succinct presentation on our status with this product. Due to recent competitive rumors, we need to be prepared to present at a meeting on short notice.

Subject: Forum Visit
To: Morris, Gloria; Newman, Ken

As I reflected on what we want to accomplish in this visit, I began to question the following:

1. will it take a full day to explain our needs?
2. what else will Forum provide for us during that day that will make the time worthwhile - is anything planned Ken - from Forum's end.
3. how much are we going to pay for a full day of all these Forum execs time?

Ken - I hope you know more about these questions than I.
Nevertheless, I would like to think about the possibility of traveling to Boston in the am Friday and returning as scheduled in the PM on Friday. Gloria - does a reasonable flight exist in the morning?
Ken - will this plan more appropriately cover our needs - say an afternoon meeting - or whatever.
I can still do the other - but need to justify the time with Forum and make sure it is well spent.
