U S A

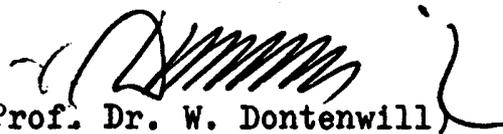

Dear Dr. Rodgman,

In your lecture held on November 2nd, 1971
in Hamburg you refer to Siegel 1970 and
Reinhardt 1971 concerning the biological effect
of exposure to Freon 11.

We should be very much obliged to you if you
could send us a complete bibliography or - if
this is not possible - at least that of Siegel
and Reinhardt.

Thank you in advance.

Yours sincerely,

(Prof. Dr. W. Döntenwill)
