Sub: Thrifty Oil Compliance Reconciliation

Monee,

The following Thrifty Oil accounts had non-compliance situations reported during the months of July and/or August that were not valid. Explanations to the right of each account should allow you to reinstate the payments for those months affected.

- ✓ Thrifty Oil #107: Warnings were issued for all contracts in this store for numerous distribution gaps. This is not cause for non-compliance. Also, Wanda Parker (843869) will further explain what "messy" displays are via voice mail.
- ✓ Thrifty Oil #98: Deletion was entered by Kevin Mccarville for removal of savings center. Given that there is no savings center display contract in this store, payment should be reinstated. The "GSCPOX" contract in the system was misinterpreted as a savings center contract.
- ✓ Sunshine Fd. #113: Full price displays were deleted for "competitive product in Doral display". Obviously, the deletion should have been for the Doral CCD, if anything.

Retail Reps have been notified of the above erroneous entries and the other non-compliant stations we discussed. They will be contacting you with detailed information for the other stores in the near future. If you need any other assistance or don't here from the Retail Reps., please call.

Compliantly,

Tom
