December 30, 1987

Dr. James Fenters  
Head, Toxicology and Environmental Health  
IIT Research Institute  
10 West 35th Street  
Chicago, IL 60616

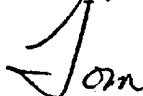

Dear Dr. Fenters:

This letter accompanies the shipment of 50 mouse restraint tubes with backstops and 30 small rat restraint tubes with backstops. These tubes are to be used with the smoking machine now in your possession.

Additional restraint tubes (both for mice and rats) will be required for the control machine that you will be purchasing in the near future. Although a minimum of 72 tubes will be needed, I recommend that you order more if your budget will allow for this purchase.

I hope to come to IITRI sometime in January to discuss the inhalation program and to train individuals on the use of the machine. If you have any questions, please feel free to call.

Sincerely,

Thomas A. Vollmuth, Ph.D.  
Toxicologist
