E. S. Harlow  
Assistant Managing Director, Research

**Special Cigarettes for Experimental Purposes.**

We are furnishing you 2,000 composite DUAL FILTER TAREYTON rods and 5 part bobbins of Ecosta cigarette paper. The bobbins are designated as follows: Reference #551, TOD 1482C, TOD 1482D, TOD 1483C, and TOD 1483D. Please manufacture, using DUAL FILTER TAREYTON blend and D.F.T. specifications, 5 cartons of cigarettes from each of the part bobbins of paper using the composite rods mentioned above for each sample. In addition, using these same composite rods please fabricate 5 cartons of cigarettes using your regular TAREYTON paper. These cigarettes are to be used for experimental purposes and should be packaged in sample packages with experimental stamps.

The unused portion of the part bobbins of paper should be returned to us, together with any unused filter rods, with the cigarette samples.
