Nancy:

We should print up HYD bulk memos and ad reprints without reference to the Spanish edition so as not to hold up deliveries of the English language book and orders for the ads.

Production reqs are attached.

I count on you to get the finished products to Steve at MAC and to lift the holds on orders for the English books and ads.

FYI -- we hope to have some sort of word on the Spanish edition within two weeks.

Oh -- you might best check with Steve on scope of back orders for ad reprints. I've specified 5,000. You may have to up that figure.

Thanks for your help!
