New York, N.Y. 10021

Dear Mr. King:

It was a pleasure chatting with you yesterday. In response to your request for information, enclosed you will find some background material on the "other side" of the smoking and health issue: four Institute publications -- on cancer, heart disease, environmental smoke and "number games" -- and a selection of public commentary on the subject by a number of respected researchers.

Please let me know if I can provide any further assistance.

Sincerely,

William D. Toohey, Jr.
